

MONDO BY DEFUNC

CREATED FOR AND BY THE CULTURE

The MONDO by Defunc brand combines the experience from Swedish sound design with the connections to the Swedish music industry in the new powerhouse called MONDO by Defunc, founded by a trinity of companies with extensive experience and tight connections to the Scandinavian music industry, its artists and creators associated with the music and urban scene.

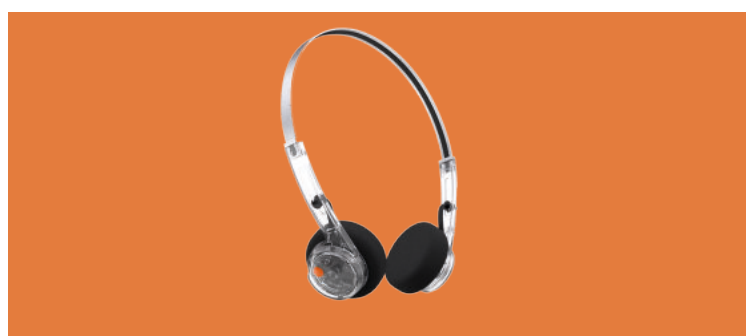

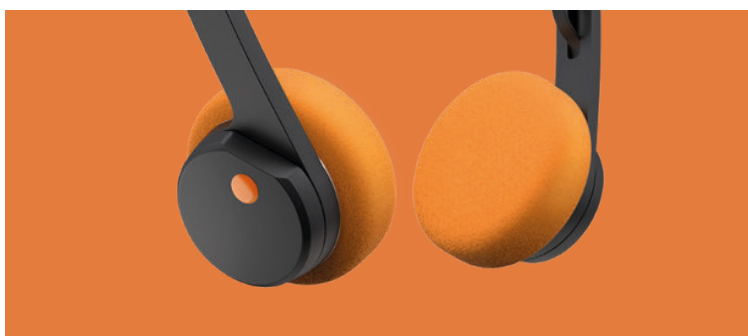

Simply put - in all MONDO products, the sound should be enjoyed the way the artist intended.

The design elements should be clear reminders of our Scandinavian musical heritage.

It's about everything from buttons, switches and controls on the product's hardware to the unmistakable signature with the cut-off corner on the packaging, a musical language that dates back to the 80's vinyl record. We have music in our DNA and it follows us all the way from the design draft to artist collaborations. Meet our Freestyle Headphones - The ultimate flashback!

MONDO BY DEFUNC

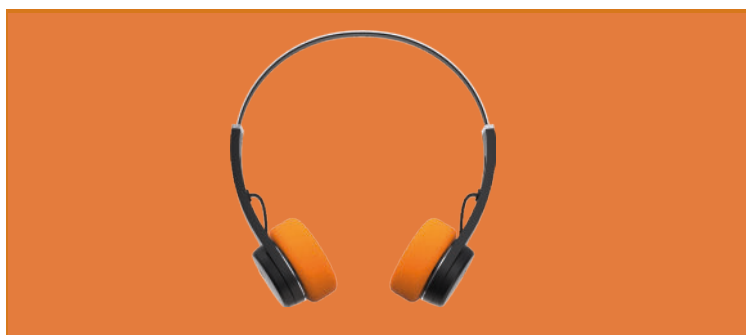

UNIQUE ACOUSTICS FOR A DEEPER BASS

We have developed a unique structure to avoid sound leakage and control the bass. This gives the 32mm driver the best circumstances to deliver optimal sound performance. That way, you can continue to enjoy heavy bass in a lightweight format.

THREE APPEALING COLORS

We give you 3 color options, one of them is a transparent version, the only one of its kind! Mix and match with multiple colors of earpads.

DESIGN ELEMENTS FLIRTING WITH MUSICAL HERITAGE

Whether you love all things 80s or if you were around 2 for the first time when it first started, you will love this retro flirt.

LIGHT AND COMPACT DESIGN

MONDO over-ear is so lightweight you'll forget you're wearing it. If it weren't for the sweet sound in your ears.
